Description :

Prsentation de l'diteurLearn A Powerful Day Trading Strategy In Less Than 60 MinutesA profitable trading strategy is the most important tool for a trader.This book explains a powerful trend-following day trading strategy for trading futures, stocks, ETFs and Forex."The Simple Strategy" Is Easy To Understand And To

TradeThe Simple Strategy is very popular amongst traders for the following reasons:Clear Entry RulesWhen trading The Simple Strategy, there's no second-guessing. As you will see, the entry rules are based on indicators - and these rules are black and white. Either the MACD is above the zero line or it isn't. And either the RSI is above 70 or it isn't. The entries are easy to identify and execute. That's why this strategy is called The Simple StrategyClear Exit RulesWhen trading The Simple Strategy you'll know when to exit even before you enter the trade. So, you know exactly how much to risk on any given trade which is essential for precise position sizing and money management. Plus, you can put the trade on auto-pilot once your entry order is filled. This keeps trade management to a minimum. It's easy and simple.Taking advantage of small intraday trendsThese days trends are short-lived. The times when you could enter the market in the morning and exit the market in the afternoon are over. These days the markets can turn on a dime. Low trading commissions and computerized trading have destroyed the nice and long intraday trends. However, with The Simple Strategy you can take advantage of the small intraday trends that we are seeing in today's markets.You don't need a sophisticated trading softwareIf you want to trade "The Simple Strategy", you only need a charting software with basic charting capabilities: Your charting software needs to be able to plot RANGE BARS, BOLLINGER BANDS, MACD and RSI. More than 90% of the charting software packages that are available today have these capabilities. There's no need to buy any proprietary indicators or expensive charting software!In short: The Simple Strategy can greatly simplify your trading.***WARNING: This Book Is NOT For Everybody! ***Do NOT buy this book if..... You Are Looking For The "Holy Grail"Because it doesn't exist! When trading The Simple Strategy, there will be losses! Losses are part of our business as traders. The good news: If you follow the rules of "The Simple Strategy", then you will make more money on your profitable trades than you lose on your losing trades. In fact, the risk/reward ratio of this strategy is 1 : 1.5, so you can expect to make \$150 for every \$100 you risk.... You Want To Automate Your Trading Strategies"The Simple Strategy" will give you clear entry signals, but it's up to YOU to decide if you want to take the signal. As an example, I personally do NOT trade right into a major report. And I only trade the first two hours after the markets open, since most trends occur during this time. Makes sense?
